

SCX LMP REGIONAL RACE - SUNDAY NOVEMBER 14th

ELIGIBLE CARS Any livery of the SCX Pro or non-Pro Audi R8, Audi R10 or Peugeot 908

GENERAL No traction magnets allowed. Race will run at 13 volts. Noise suppressors may be removed from the motor and guide, if applicable. SCX Pro parts may be used but no body or chassis modifications are allowed. Cars will be impounded after tech inspection and remain impounded until racing starts. Limited number of test laps will be allowed prior to final submission of the car. Drivers may not touch their cars after tech unless done during green flag conditions. Any controller is allowed provided that controller does not store or add to the track power.

BODY Bodies may be painted and/or decals applied. Cars must have full windows and SCX supplied interior tray. Wing must be attached at the start of the race, no penalty is incurred if wing breaks off during competition. No modifications of any kind are allowed to the body. Body ride height may not be altered in any way.

CHASSIS Gluing of motor pod is permitted. Tape may be applied to the chassis to limit motor pod travel. Light sanding may be done around motor pod to allow pod travel. Pro SCX motor pod may not be used in a non-Pro car. Chassis must not have body mounting holes modified in any way.

WHEELS AND TIRES Wheels and tires may not protrude outside the body more than 1mm. Front wheels and tires must be stock for that car or SCX Pro. Front tires may be trued but may not be smaller than 16.5mm. Only SCX tires may be used on the front. Allowable Indy Grip Silicones are IG4009 for SCX Pro wheels. IG2086 tires may also be used. Hand-out tires supplied on race day must be used. No chemical treatment is permitted on tires prior to or during racing.

GUIDE Guide must be SCX stock or Pro. Chassis may not be modified to accommodate. Any brand of braids allowed.

MOTOR RX-42B motor will be hand-out on race day and must be returned at conclusion of racing. 9T pinion is installed. Motor lead wires may be added in car to conduct power. Any brand of wires is allowed. No chemicals may be added to the motors prior to or during racing. Pre-race oiling of motor shall be done by tech inspectors with oil provided. Racers will install their own motor & tires in front of a tech inspector.

GEARS Any SCX stock or Pro crown gears are allowed.

WEIGHT Weight may be added but must be fully contained inside the body or magnet holder on the top of the chassis.

LIGHTING Lights may either be functional or non functional but components for lights must remain intact inside car. The tabs that deliver power to the lights may be bent back to prevent contact, if the builder decides to do so.

*Free Practice 3:00PM 3 min. heats - Tech Opens 4:00PM
Entry Fee \$20 Includes Hand-Out Tires, Pizza, Beverage & Snack
